Project No. S725.20

SDMS DocID 48887

Ms. Jackie Prince
U.S. Environmental Protection Agency
John F. Kennedy Federal Building
Boston, Massachusetts 02203

Dear Ms. Prince:

Enclosed are copies of the Tibbetts Engineering Corporation references obtained by NUS for use in the Feasibility Study. We were unable to make acceptable quality copies of numerous oversized drawings since these were sent to us as blue-line prints. We have retained these in our files and can make them available if deemed necessary. A listing of the oversized drawings which we received from Tibbetts is attached.

Also attached are several listings that identify key NUS and subcontractor personnel for the New Bedford Remedial Investigation and Feasibility Study.

Please call if you have any additional needs.

Very truly yours,

Joseph Yeasted
Project Manager
